A featherweight tripod with its REAPER GRIP attachment that adapts to all types of rifles

A high-end shooting tripod used by sports shooters, hunters and law enforcement for standing, sitting or lying down shooting.

- Machined from carbon fiber
- Reversible 3/8"-16 or 1/4"-20 thread for mounting a weapon rest head
- 3 foot spread positions
- Legs with 4 extensions with robust locking system
- Maximum authorized load: 9 kg
- Height-adjustable and reversible central column equipped with a hook to weight the tripod.
- Fully extended height: 163 cm
- Fully folded height: 48 cm
- Weight: 1.746 kg

The design of the REAPER GRIP assembly allows it to be adapted to any shape of rifle stock without damaging the weapon.

The REAPER GRIP provides a safe and effective hold preventing the weapon from coming out of the housing when firing while allowing a certain balance of the weapon in order to adjust its aim.

REAPER GRIP mounting head

- Robust aluminum construction
- Adjustable non-slip jaws to fit straight and tapered stocks
- For barrel with a thickness of 25.4 mm to 76.2 mm
- 360° rotation with lock
- 109° elevation range (21° up and 87° down)

- Offset head to facilitate weapon handling
- Design preventing any tearing of the weapon at the time of the shot.
- 3/8''-16 thread
- Weight: 1134g

Model designed in carbon for incredible lightness and resistance. They are intended for sport shooters and hunters looking for an easy to transport shooting support, while offering excellent shooting stability.

Developed for precision, KJI tripods are intelligently designed to provide the shooter with incredible shooting comfort and stability.

Initially dedicated to members of law enforcement, the KJI PRECISION shooting supports do not compromise on quality, resistance and finishes. They provide secure support for the weapon and relieve the shooter who has to keep his position for long hours.

Its adjustable feet coupled with interchangeable rubber pads allow it to adapt to all types of terrain, even the most uneven.
