KIJ320	COMPLETE HEAD REAPER RAIL ARCA SWISS	Vente libre	16.5	894	569.00 € incl. tax

A high quality mounting head for ARCA SWISS system

- Ultra sturdy aluminum construction
- Rail mounting ARCA SWISS
- 360° rotation with lock
- Tilt adjustment to 22°
- 109° elevation range (21° up and 87° down)
- Offset head to facilitate weapon handling
- Mounting on 3/8''-16 or 1/4''-20 thread with the supplied adapter
- Weight 894g

The REAPER RAIL tripod mounting head has been designed for intensive use, particularly in the field of intervention forces.

It offers the rifle a safe, stable and effective support.

The REAPER RAIL support is adjustable in drift in elevation as well as in slope in order to adapt to all types of terrain. It allows you to adjust your aim and level the weapon, without having to tediously adjust the height of each tripod leg.

With its offset design, it facilitates handling of the weapon, in particular for the introduction or removal of a magazine.

Its fluid head allows 360° rotations and 109° elevation.

It attaches to any tripod or mounting system with a 3/8''-16 or 1/4''-20 mounting screw thanks to its adapter.

Initially dedicated to professional use, the KJI shooting supports allowed unparalleled shooting comfort and reduced fatigue for a shooter who had to keep his position for hours.

Offered to hunters and sport shooters, KJi products allow shooting with incredible precision at ever greater distances.
