Delory-Brumard mount for Gabion shotgun with 11mm rail.

Compensator intended to mount a gabion scope on a shotgun equipped with an 11mm prismatic rail. Compensates for shooting recoil and protects the hunter's eye because the scope does not follow the movement of the weapon.

- 106 x 29 mm one-piece aluminum base.
- Tightening on the rail without tools by 2 knobs.
- Damping by 2 springs mounted on 2 steel guide rods.
- Support rod in aluminum alloy (width. 20 mm), base and mechanism in steel (width. 29 mm).

The Delory-Brumard recoil compensator mount for gabion gun allows the attachment of a 8x56 to 9x63 Gabion telescope or an equivalent 1/2 binocular.
