|---|---|---|---|---|---|---|---|
| OP880 | Adjustable mount | Vente libre | 30.5 | 2.0 | 370 | 11mm rail | 129.00 € incl. tax |

## Delory-Brumard Gabion shotgun mount with scope elevation adjustment.

Compensator intended to mount a gabion scope on a shotgun equipped with an 11mm prismatic rail. This assembly is equipped with an adjustment screw allowing the gabion bezel to be adjusted in elevation. Compensates for shooting recoil and protects the hunter's eye because the scope does not follow the movement of the weapon.

- 106 x 29 mm one-piece aluminum base.
- Tightening on the rail without tools by 2 knobs.
- Damping by 2 springs mounted on 2 steel guide rods.
- Support rod in aluminum alloy (width. 20 mm), base and mechanism in steel (width. 29 mm).

The Delory-Brumard recoil compensator mount for gabion gun allows the attachment of a 8x56 to 9x63 Gabion telescope or an equivalent 1/2 binocular.
