SKU	Designation	French Law	Length (cm)	Height (cm)	Weight (g)	Mounting	MSRP
OP881	Editing for Canardouze	Vente libre	37.1	2.4	450	11mm rail	141.00 € incl. tax

Extremely low Delory-Brumard mounting for Gabion hunting.

Assembly intended to mount a gabion telescope on a Canardouze rifle. This assembly makes it possible to compensate for the particularly significant recoil of the simultaneous firing of the 2 guns. The hunter's eye is protected because the scope does not follow the movement of the weapon.

- 106 x 29 mm one-piece aluminum base.
- Tightening on the 11 mm rail without tools by 2 knobs.
- Damping by 2 springs mounted on 2 steel guide rods.
- Support rod in aluminum alloy (l. 11 mm), base and mechanism in steel (l. 35 mm).

The Delory-Brumard recoil compensator assembly for canardouze allows the attachment of an 8x56 to 9x63 Gabion telescope or an equivalent 1/2 binocular.
