| A72309B | Dye I4 / I5 High Definition Thermal HD Lens | Vente libre | 59.00 € incl. tax |

The i4 and i5 goggle thermal lens treatment provides UV-A, UV-B, UV-C protection and is optically treated to provide superior optical clarity. The screens are also 4D treated, with an anti-fog and anti-scratch treatment for optimal longevity. A select number of lenses feature dyetanium™ coating to reduce glare and balance light transmission.

Unlike many goggles on the market, our shields are not flat plastic pieces that are pressed and curved. Instead, we use a proprietary process to thermoform our screens to ensure perfect optical clarity.
