The original BoreSnake cleaning cord for your shotgun!

- 100cm Weighted Pull Cord: Fits the longest shotgun barrels.
- The box lid serves as a pull handle
- First part with an integrated wire brush to remove burnt powder deposits.
- Second part in fibered fabric to wipe and clean the barrel.
- Last part in a loop to finish wiping.

BoreSnake - Complete cleaning in one single gesture:

1) The brass weight effortlessly pulls the cord so that you only have to pull firmly.

2) The first section of cord takes the coarser particles.

3) The metal swab embedded in the string releases hard deposits.

4) The main section of cord, with 160 times more surface than a cloth, allows an unparalleled cleaning. After a few uses, the BoreSnake is easily cleaned by hand or machine in a wash bag.

Used to clean guns of different calibres.
