A very easy to use wooden field mouse trap!

This box is a beech wood trap for field mice and weasels. It makes it easy to catch these animals without killing them.

Caution: Although this trap may capture weasels, trapping them is strictly prohibited by law. It is therefore mandatory to release them after their capture.

Its operation is very simple: the animal walks on the wooden pallet that tilts and hangs so that it can not come out again.

Very few mechanical parts for this rat trap, Norway rats and field mice that will work for decades.

French made.
