CR852	SAK-Pocket	Vente libre	.22 LR	1/2 x 20 UNF	8	34.5	100	Black	108.00 € incl. tax

The most compact of our sound suppressors and equipped with a picatinny rail!

The Pocket Silencer is intended to be installed directly on the barrel thread of the 1/2-20 pistol.

This sound reducer is equipped with two Picatinny rails for adding accessories such as a laser or a flashlight.

It is recommended to use classic subsonic ammunition and avoid copper heads for optimal use.

Completely removable, the SAK Pocket silencer is very easy to clean.

- Attenuation 31 db.
- 1/2" x 20 thread
- Calibers: .22LR, .17 HMR, .22 Magnum

Ultra-compact size and maximum maneuverability

The **SAK Pocket** lives up to its name. At only **80 mm** long and **weighing 100 g** , it sits discreetly at the end of the barrel. It perfectly maintains the rifle's balance, which is particularly valuable for dynamic shooting or when moving.

Integrated Picatinny rails: a truly original feature

This model incorporates two adjustable **Picatinny rails** . These allow for the easy attachment of accessories such as a **light** or **laser** . This unusual configuration for a moderator opens up interesting possibilities depending on the intended use.

Effective noise reduction for small calibers

Optimized for **.22 LR** , **.22 WMR** and **.17 HMR** calibers, it offers a noise reduction of approximately **31 dB** . Shooting becomes significantly more comfortable, without affecting the weapon's accuracy.

Simple maintenance and demountable design

The **SAK Pocket** is fully **disassemblable** , with easy access using a **25mm** wrench. This is a significant advantage for rimfire calibers, which are often more prone to fouling.

Secure assembly and modularity

The mount attaches directly to the **1/2x20** thread, using a secure system combining **a front nut** and **a rear hex bolt** . It is also possible to connect two moderators in series to increase performance.

Additional features

- **Color:** black
- **Origin:** Finland
- **Use:** recreational shooting and sport shooting

FAQ

Is this silencer suitable for .22 LR?

Yes, it is designed for .22 LR, .22 WMR and .17 HMR calibers.

Can accessories be mounted on it?

Yes, it has two Picatinny rails allowing you to add a lamp or laser.

Is it removable for cleaning?

Yes, it is fully disassemblable for simple and efficient maintenance.

Installation instructions: Unscrew the front nut on the weapon and the hex screw on the rear of the pocket suppressor. Tighten the body onto the weapon's threads, rotate the Picatinny rails to the desired position, and lock the Allen screw. Tighten the front nut. You can now remove and reinstall the pocket suppressor; the rail position will remain as desired.
