The most compact of our sound suppressors and equipped with a picatinny rail!

The Pocket Silencer is intended to be installed directly on the barrel thread of the 1/2-20 pistol. This sound reducer is equipped with two Picatinny rails for adding accessories such as a laser or a flashlight.

It is recommended to use classic subsonic ammunition and avoid copper heads for optimal use.

Completely removable, the SAK Pocket silencer is very easy to clean.

- Attenuation 31 db.
- 1/2" x 20 thread
- Calibers: .22LR, .17 HMR, .22 Magnum

installation instructions; unscrew the front nut of the weapon and the hex screw on the back of the handheld suppressor, tighten the body on the thread of the weapon, rotate the Pica rails to the desired position and lock the Allen screw, tighten the front nut. You can now remove the pocket suppressor and reinstall it, and the rail position will remain as desired.
