- **Accessories included:** Grenadier rings, 3-part kit (gunsmith assembly)
- **Warranty:** 2 years

The **Browning BAR 4X Hunter with driven sights** is a modern semi-automatic rifle designed for driven hunts and big game. Combining tradition and innovation, it offers improved accuracy, redesigned ergonomics and great reliability in all circumstances.

Increased precision

Thanks to its **threaded barrel-to-frame assembly** and a more rigid interface, the BAR 4X guarantees increased accuracy compared to previous generations. The **fluted and threaded barrel** (M14x1) optimizes heat dissipation and allows the mounting of accessories such as a sound moderator or a muzzle brake.

An advanced weapons system

The **manual cocking mechanism** has a **25% reduction in stroke** , from 20 mm to 15 mm, for faster and smoother cocking. Its **enlarged button** makes it easier to use, even with gloves. Now standard on all BAR 4X models, it provides safety and ease of use.

Ergonomics designed for hunting

The **fiber optic beaten sight** ensures rapid acquisition of moving targets. Its elegant and robust **G2 pistol grip wood stock** offers a natural shoulder fit and excellent handling. With a fixed 2+1 round magazine and a configuration delivered in a 3-part kit (assembled by a gunsmith), this rifle is designed to meet the expectations of demanding hunters.

Choose the Browning BAR 4X Hunter with driven sights and enjoy a robust, precise and ergonomic semi-automatic rifle, ideal for big game driven hunting.
