**Cal. 4,5**

| SKU    | Designation              | French Law | Caliber       | Shots | Energy (J) | Speed (m/s) | Projectile | Length (cm) | MSRP              |
|--------|--------------------------|------------|---------------|-------|------------|-------------|------------|-------------|-------------------|
| ACP726 | Borner 92 polymer pistol | D          | .177 (4.5 mm) | 20    | 2.52       | 120         | BBs airgun | 21          | 80.00 € incl. tax |

### **Ideal for recreational shooting.**

The Borner 92M is a replica of the Taurus PT-92 pistol, the Brazilian semi-automatic pistol which is itself a licensed copy of the famous Italian Beretta 92F pistol. This replica operates using a 12g CO2 capsule and fires 4.5 mm (.177) caliber steel ball type projectiles.

Magazine capacity is 20 rounds. The replica is not blow-back, ie the breech is fixed. The safety catch is on the right side of the replica above the trigger guard. To move the safety catch, you have to press on it then slide it either towards F (Fire - to shoot) or towards S (Safe - to put it in safety).
