Heated underwear with control via integrated buttons or smartphone!

- More comfort thanks to a warm back.
- The HEAT heated jacket keeps you warm for a maximum of 3 to 11 hours and can be set in three levels.
- Control adjustment by smartphone or directly on the battery in the pocket.
- Supplied with 2 batteries. and USB charger.

Lenz heated clothing makes it possible to stay on the lookout or in hunting action comfortably even in cold or wet weather.

Thanks to their 3 heating levels, they adapt to all uses and offer maximum autonomy. Resolutely modern, they can be controlled directly from your tablet or smartphone.

- Upper fabric: 84% polyamide 16% spandex
- Inner fabric: 100% polyester

The men's heated vest guarantees a warm back at the push of a button. The integrated heating element is imperceptibly connected to the lithium packs (available as an option), which are placed under the ribs of the torso.

The sleeveless vest has a narrow cut to guarantee direct heat transmission. It is worn as a bottom layer. Breathable material dries quickly and resists abrasion.

In warmer temperatures, the heat vest 1.0 men can be worn without the lithium packs for sports, work and leisure. It folds up easily and takes up little space.
