Powerful and economical non-blowback CO2 replica under Steyr license.

The **ASG Steyr M9-A1 CO2 airsoft pistol** is a faithful replica licensed by **Steyr Arms** , featuring a reinforced polymer body, a tactical rail, and fiber optic sights. Its non-blowback operation provides maximum autonomy with consistent power.

- **Energy:** 1.1 Joules
- **Propulsion:** CO2
- **Caliber:** 6 mm
- **Capacity:** 14 marbles
- **Hop-up:** fixed
- **Slide:** fixed
- **Body:** polymer (FPV)
- **Picatinny rail:** integrated
- **Weight:** 520 g
- **Barrel length:** 120 mm
- **Speed:** 105 m/s (? 344 fps)

Compact and gas-efficient replica

Thanks to its **non-blowback design** , the Steyr M9-A1 consumes very little gas while maintaining a **stable velocity of 105 m/s** . This makes it an ideal replica for long gaming sessions or as a reliable secondary pistol.

Shooting comfort and quick aiming

The ergonomic, textured grip ensures a firm and comfortable hold. The integrated rail allows for the addition of accessories such as a light or laser. The **rear fiber optic sight** greatly improves target

acquisition, even in low light.

A faithful and durable licensed replica

Based on the famous model designed by Wilhelm Bubits, a former Glock engineer, the **M9-A1** stands out with its futuristic design and **high-density polymer construction** . Its **14-round CO2 magazine** is easy to handle, and its robust internal mechanism ensures good durability.

Secondary characteristics

- **Type:** CO2 NBB airsoft gun
- **Firing mode:** semi-automatic (double action)
- **Target:** rear fixed fiber optic cable
- **Magazine:** standard 14 rounds
- **Design:** full polymer (FPV)

FAQ

What is the difference between NBB and blowback?

A non-blowback (NBB) replica has no recoil, which reduces gas consumption and increases battery life. It is quieter and requires less maintenance.

Is the Steyr M9-A1 usable on all terrains?

Yes, with a power of 1.1 joules, it is compatible with the majority of airsoft fields in France and Europe.

Can an accessory be mounted on this replica?

Yes, the Picatinny rail under the barrel allows for the addition of a tactical light or laser.
