- Materials: Porous silicon nanoparticle
- Usable for cases for 2 long weapons or a safe of maximum 20 L.
- Absorbs moisture for 30 days
- Rubber carcass with colored indicator of the absorption level
- Absorption volume: 33 g + or - 10%
- Reusable after microwave for 9 min after removing the rubber casing
- No chemical or harmful components
- Dimensions: 11 x 6.5 x 2cm
- Weight: 110g

The SILENT DRY Pioneer dehumidifier uses patented technology to absorb humidity in a confined environment. The material it uses is eco-friendly and does not prove to be harmful to users.

It allows to preserve from humidity, condensation, mold or rust, its weapons or sensitive equipment such as its optics, its electronic accessories, or its photography equipment.

Easy to use, it can be placed in its weapon case, its transport case or in a safe of maximum 20 L. The moisture absorption indicator allows a visual and quick check of the filling rate of the dehumidifier.

When the indicator is white, the product is ready for use. When the indicator is completely blue, the maximum rate of absorption has been reached.

After 09 minutes in the microwave or oven, the product is operational again.

It is essential to remove the rubber shell before placing it in the microwave or in the oven.

For optimal performance, it is advisable to replace your dehumidifier every 5 years. During this period, the number of renewals in the oven or microwave remains unlimited.
