## This Clip-on is mounted upstream of your hunting scope in order to transform it into a thermal scope.

- C425F: Ø25 mm / up to 1300 m / 384x288 12µm sensor / >7.5 hours of battery life
- C435F: Ø35 mm / up to 1800 m / 384x288 12µm sensor / >7.5 hours of battery life
- C450F: Ø50 mm / up to 2600 m / 384x288 12µm sensor / >7.5 hours of battery life
- C635F: Ø35 mm / up to 1800 m / 640x512 12µm sensor / >6.5 hours of battery life
- C650F: Ø50 mm / up to 2600 m / 640x512 12µm sensor / >6.5 hours of battery life

The Chiron series can be used in three ways: either mounted on a scope using the clip-on system and an adapter ring or as a scope directly with the addition of a rail, or as a monocular. **Rail and adapter ring are not included.**

**Ultra-low latency:**

PIPS (Pixfra Imaging Processing Solution) enables an image latency of less than 20ms, compared to 60ms with conventional image solutions, which will help you aim precisely at the target.

**High impact resistance:**

The heavy-duty structure is designed to withstand a maximum recoil of over 6000 Joules, which is perfect for a variety of 12 gauge, 9.3x64, .375 H&H...

**High protection index:**

The body of the Chiron series is made of metal, which gives it a high level of protection. The IP67 protection index allows it to be used continuously in any harsh environment.

**Ergonomic design:**

The Chiron series has a rotary knob that allows you to quickly operate the menu for a more convenient and faster using experience.

**Ease of zeroing:**

The Chiron Clip-on supports one-shot zeroing. It features support for 5 x 6 crosshairs configuration and has more than 10 types of crosshairs with variety of color optional. It also supports picture-in-picture or freeze-picture mode when zeroing, to help you zero faster.

**Share your shots:**

The Chiron series enables trigger-activated recording (RAR) and automatically saves key moments as you shoot, so you never miss the highlights. The Pixfra APP also allows you to quickly share your photos with your friends.
