SKU	Designation	French Law	Diam. (mm)	Height (cm)	Weight (g)	Vol (ml)	MSRP
RE0107	BP Maker powder flask	Vente libre	38	17.5	67	150	39.00 € incl. tax

Compact size that fits in your pocket.

- Body in HDPS - High density polyurethane guaranteeing maximum lightness with optimal flexibility and strength.
- POM - Polyacetal coating to reduce the risk of friction.
- Valve button and brass chamber with Clip-on ® system, which guarantees precise dosing of the powder and reduces the risk of leakage.
- Interchangeable 18 grain mouthpiece. M10x1 thread compatible with the majority of Pedersoli spouts.
- Can be used for storing powder or semolina.

Price per unit, product sold in 2 units to gunsmiths.

To use the powder horn, once filled with powder:

- 1) tilt it down with the index finger covering the beak.
- 2) press the pusher to let the powder flow.
- 3) once the spout is full, release the pusher.
- 4) restore the pear to the top and remove the index finger.
- 5) visually check the filling of the spout
- 6) pour the powder into your tube.

The components of the BP Maker powder flask, HDPE, polyacetate and brass are selected for maximum safety. All these components are anti-spark and dissipative of static electricity. However, it is forbidden to voluntarily shake the flask filled with powder. Do not use the powder horn near a flame, a source of heat or a firearm at the shooting range.
