Standard pressure magnum cartridges for proven CIP-S rifles

Tunet Epoque zinc/tin cartridges allow you to fire lead-free magnum cartridges (12/76) in a rifle that is not proven high performance steel! Zinc/tin granules behave very closely to lead granules.

Be careful, to use with proven CIP-S rifles, with chokes less than 1/2!

The Tunet Epoque cartridge preserves old rifles! Allows you to use your old rifle even in wet areas thanks to their lead-free shot. Ga zinc/tin shot is a substitute for lead that can be used in the same environments as steel shot.
