## A high capacity 450 round 6mm Airsoft magazine designed for use with Double Eagles M89A series Electric Airsoft Pistols.

- Replica of the UMP 45 loader
- Designed for the AEG Double Eagle M98A
- Capacity of 450 cartridges
- High capacity winding design
- Lightweight polymer magazine
- Durable and solid design
- Top loading
- Wheel down

Externally, this is an almost identical replica of the real standard M89A UMG .45s magazines; It is constructed of high strength rigid and lightweight polymer, finished in a smooth, flat black color. As a high capacity magazine, it features an internal ammo hopper capable of holding 450 Airsoft BBs, which is filled through a sliding window on the top of the magazine. A wheel at the base of the magazine rolls up and fills the ammo feed tube with airsoft pellets, ready for use. To assist users wearing gloves, the wheel has teeth, allowing users to still locate the wheel by touch and remount their magazines. The high capacity design allows users to stay in the game longer, as they can carry significantly more ammo than players with medium or low capacity magazines.
