The versatile closing knife. the Opinel which is both useful in the pocket and elegant on the table.

The tapered padauk is equipped with a **poliglace blade with a refined profile** , a Virobloc safety ferrule stamped with the **new logo** locking the blade in the open and closed position, and a **padauk handle** resistant. Padauk is a unique wood that has a color varying from purple brown to pinkish with purple veins.

Hardness 55-57 HRC. Origin Europe.

The stainless steel of OPINEL blades is an optimized grade to guarantee both high resistance to corrosion and high mechanical performance.

The 8cm blade offers **excellent sharpness** and **high resistance to abrasion** (wear) which allows it to withstand regular contact with hard materials, such as ceramic, before requiring resharpening. Stainless steel has the advantage of requiring **no special maintenance** under ordinary use conditions, unlike carbon steel. However, it may encounter its limits when placed in prolonged contact with an aggressive environment (acid, salt water, detergent, etc.). It has a polished finish with double polishing to obtain a mirror effect.

The handle is formed from Padauk, a dense, fine-grained African wood that ranges in color from purple-brown to pinkish with purple veins.
