PG9009	Replica LTX-3 CO2 Blowback Pistol	Vente libre	15	20	500	CO2	79.00 € incl. tax

Compact and robust CO2 blowback replica made of polymer, ideal for dynamic gameplay.

The **Lancer Tactical LTX-3 CO2 airsoft pistol** is a compact sliding slide replica with a **reinforced polymer** structure, ideal for beginners as well as players looking for a simple, reliable and impactful model.

- **Energy:** 1 Joule
- **Propulsion:** CO2 12 g
- **Caliber:** 6 mm
- **Capacity:** 15 marbles
- **Hop-up:** fixed
- **Construction:** reinforced polymer
- **Aiming:** front and rear fiber optics
- **Picatinny rail:** integrated
- **Safety:** side
- **Handle:** textured

Lightweight structure, solid construction

The **reinforced polymer frame** ensures durability while maintaining a light weight, perfect for long gaming sessions. The ribbed slide allows for quick manipulation, even with gloves. Its **textured grip** provides a good hold for a natural and efficient grip.

Blowback mechanism and realistic recoil

The **CO2 blowback system** reproduces a satisfying recoil effect with each shot, and the **slide locks when the magazine is empty** for added realism. This type of operation provides sensations

close to those of a real firearm while remaining easy to maintain.

Tactical equipment and ease of use

The **Picatinny rail** allows for easy mounting of a light or laser for indoor use. The **fixed hop-up** ensures a stable trajectory with 0.20 to 0.25g BBs. The fiber optic sights facilitate rapid target acquisition in low light.

Secondary characteristics

- **Type:** compact CO2 blowback airsoft gun
- **Relaxation:** double action
- **CO2 unit:** integrated into the handle
- **Slide:** mobile with gripping grooves
- **Bolt lock:** automatic when the magazine is empty

FAQ

Is the LTX-3 suitable for beginners?

Yes, its ease of use, solid construction and moderate power make it perfect for a first CO2 blowback replica.

What type of CO2 cartridge should be used?

The replica operates with standard 12g cartridges, housed directly in the grip.

Can a tactical flashlight be added?

Yes, the integrated Picatinny rail allows for the easy addition of a compatible lamp or laser.
