Designed for immediate response

Operable with a simple gesture, this device stands out for its **intuitive grip** and ergonomic, stock-like design. Even under stress, its operation remains fluid and natural thanks to a **double-press trigger** , allowing the two charges to be released one after the other without reloading.

Pyrotechnic propulsion: precision and reliability

Unlike conventional sprays, the **Guardian Angel III** uses a pyrotechnic charge to propel the liquid at **180 km/h** . This system ensures **consistent speed** and unaffected effectiveness, even after years of storage. The projectile reaches its target up to **4 meters away** , even in **rain or strong winds** .

Ultra-powerful incapacitating agent: Piexol 400kS

The active ingredient used, **Pixol** , is derived from chili peppers and dosed to cause immediate neutralization. The effect lasts **15 to 30 minutes** , with a **5-minute** disorientation phase. This product acts directly on the mucous membranes and respiratory tract, blocking any attempt at aggression.

Discreet, lightweight, and always ready

With its compact size (120 mm long and weighing only 120 g), it easily slips into a pocket or attaches to a belt using its **integrated clip** . It is therefore **always available** , without any preparation. Non-rechargeable, each model is ready to use immediately upon purchase, requiring no maintenance or adjustments.
