4-station reloading press with Breech Lock system

Steel support for your reloading tools. To mount on the Lee Reloading Stand, your workbench or on the wall. Your tools always at hand!

- Easy to use and without adjustment. See the quick start guide and product instructions.
- Modular construction allows for as much or as little automation as the operator desires, without any adjustments.
- Cartridge change in seconds, including primer size, without any adjustments.
- Quick-change bolt lock function in all four positions, without adjustment.
- Exclusive automatic socket placement, without adjustment.
- Primer removal through the ramp with a convenient integrated primer removal tube.
- Includes four colored breech lock rings for easy die identification.
- Includes one large and one small priming arm.
- Features an ergonomic wooden handle. Others charge almost €50 for this comfort feature.
- Includes hex wrenches for gauge changes with a built-in tool storage rack. Others charge almost $30 just for the tools and storage rack!

The user must make the initial adjustment of the tool in the seat locking rings. Once adjusted, the Breech Lock system allows for instant change.
