## Canifugue Mix FUG1032 anti-runaway system for dogs: a virtual barrier with settings accessible on the collar.

- A selector on the transmitter box allows the system to be adapted to small and large areas.
- Unlimited number of collars for the same transmitter box
- Integrated security systems
- Adjustable stimulation intensity on each collar (8 levels)
- Adjusting the intensity of stimulations outside the collar
- Comes with a 100 meter spool of thread

- The wire is laid on the ground, buried or overhead on an existing fence.
- For the system to work, the wire must form an unbroken loop that runs from and back to the transmitter box.
- Adjustable zone width (sound warnings / electrostatic stimulation)
- System secured by 3 integrated safety devices:
  - wire break indicator
  - evacuation of the audible warning zone
  - evacuation of the stimulation zone
- There is no limit to the number of receiver collars for a single transmitter box: you can safely keep as many dogs as you want within the same perimeter.
- For each collar, 8 levels of stimulation are available, allowing you to best adapt the intensity of the stimulation to your dog (size, sensitivity, character).

- 2 years warranty
- Immersion-tight collar
- Collar autonomy: 6 months (normal use)
