A59121	3M™ PELTOR™ ProTac™ Hunting and Shooting Helmet	Vente libre	223.00 € incl. tax

Rediscover hunting and shooting safely with 3M™ PELTOR™ ProTac™ headsets: block impact noise, amplify surrounding sounds and stay connected to your environment for an uncompromised experience.

Explore immediate protection against harsh noise with the 3M™ PELTOR™ ProTac™ Headset, tailor-made for hunters and shooters. Its sound modulation capability allows you to stay connected to the sound environment while enjoying clear conversation with your group. With its 3.5mm audio port, connect to a radio for seamless coordination, while its built-in voice menu lets you adjust settings without interrupting your activity. Additionally, its auto-off feature saves energy and alerts you when batteries need replacing, providing a convenient and secure experience.

- Helmet designed for use while hunting or shooting
- Level-dependent function for ambient noise helps protect against harmful impact noise, while still allowing ambient sounds to be heard
- Listen-only 3.5mm stereo input for connecting to external devices such as a cell phone, radio or two-way radio
- Increases your ability to communicate with others nearby as well as your ability to hear quieter sounds
- Voice-guided menu system, so no need to remove your headset
- Headset automatically turns off after 4 hours of non-use to save power, with low battery signal letting you know when the device needs to be recharged
