Designed for continuous performance

The **P-10C** stands out for its **exceptional energy efficiency** : up to three full magazines per CO2 cartridge, with remarkable firing consistency. Its blowback system delivers a crisp and precise recoil, more responsive than many competing models. Cold-resistant, it maintains its performance even after multiple consecutive magazines.

Threaded barrel and Optic Ready slide

The replica features a **14mm CCW threaded barrel,** allowing for the addition of a suppressor or tracer unit. The machined slide includes a **mounting plate for a micro red dot sight** . Standard sights are provided for a conventional setup.

Customizable ergonomics

The **P-10C** comes with three **interchangeable backstraps** (S, M, L) to adapt the grip to all hand sizes. The textured grip ensures excellent stability, and the **ambidextrous magazine release button** (optional) accommodates left-handed shooters. The safety is dual: **trigger and subframe** , just like on the real firearm.
