## Aigle laceless walking shoes: Automatic tensioner!

Laforse 2 shoe in full grain leather and polyamide textile combines robustness, style and comfort.

Exclusive tensor system replaces traditional laces: a specific unbreakable cable passes through the eyelets and an automatic drum closes the shoe or opens it depending on the direction of rotation! A huge time saver in the field!

- MTD membrane: prevents water from entering and allows perspiration to evaporate.
- Front stone guards for better resistance.
- Polyamide insole on felt.
- Rubber outsole with marked relief for better grip.

No Lace means Without laces! Aigle fast and efficient closing system

Description :

The Laforse MTD model in full grain leather and polyamide textile combines robustness, style and comfort. It is equipped with an MTD membrane to allow the foot to stay dry and allow perspiration to evaporate. Front stone guards for better resistance. The insole is made of polyamide on felt for greater comfort. The outsole is made of rubber with a marked relief for better grip. Upper: protection and resistance Membrane: keeps feet dry and wicks away perspiration Stone guards at the front and back: additional and durable resistance Insole: comfort Notched sole: grip

Composition :

- Upper: full grain leather and polyamide
- Membrane: MTD
- Insole: polyamide on foam
- Outsole: rubber
- Assembly: welded

Interview :

- Clean the inside and outside of the shoe using a damp, lint-free cloth.
- Never dry damp shoes near a heat source or in direct sunlight.
- Maintenance of leather with a velvet appearance (split leather, nubuck): brush the surface using a soft brush to remove dust then apply a waterproofer (never use shoe polish).
- Maintenance of smooth-looking leather: wipe the surface with a soft damp cloth then apply a small amount of wax-based product to create a protective film on the shoe.
