The FN 509 LS EDGE™ is positioned as the ultimate tactical pistol. Its design meets the most demanding standards, where every fraction of a second is of crucial importance, and holding the advantage in your hands becomes imperative.

The FN 509 LS Edge is equipped with a flat and responsive trigger, enlarged aluminum magazine well, extended and lightened slide. Fiber optic sights for precise and fast aiming.

- Highly resistant graphite PVD finish
- Ambidextrous slide catch & oversized magazine catch
- 12.7 cm hammered and chamfered barrel.
- Picatinny rail

Comes with: 2 interchangeable grip backs, 2 17-round magazines, 4 MRD mounting plates, locking device & soft pistol case with FN logo.

- Rising drift at low light, co-witness with MRD
- Flared magazine well for faster magazine changes
- Flared magazine base and textured magazine bottom
- Long, lightweight slide for better absorption of recoil

FN's all-new Long Slide stands out as the most advanced 509 pistol on the market. Each high-performance feature has been carefully selected to provide you with all the benefits you need. Chambered in 9mm Luger and subjected to tests including a million live shots, it excels both in the defense of freedom and in dominating the competition in competitions.

VERSATILITY: Patented low profile optics mounting system easily adjusts to all standard MRD standards. Three 17-round magazines, equipped with aluminum bases, increase capacity.

Features include an ambidextrous slide catch and oversized magazine catch. The graphite PVD finish offers exceptional resistance.

ACCURACY: The flat-faced trigger breaks cleanly at approximately 5 pounds. The 12.70 cm hammered and chamfered barrel ensures optimal precision. Low-light rear sight, fiber optic rear sight and co-witness with MRD provide options for precise adjustment. The high-performance striker reduces the trigger weight by 0.68 kg compared to the FN 509.

CONTROLS: The long, lightweight slide absorbs recoil more quickly, ensuring improved target tracking, while the side releases improve grip. The new texture of the carcass, with two interchangeable handle backs, improves grip in all conditions. The flared magazine base and the texture of the magazine bottom also improve grip.

SPEED: Flared aircraft aluminum feed well makes magazine changes faster, and weighted magazine heels drop faster. Reduced trigger travel and quick trigger reactivation contribute to faster handling of the weapon. The oversized, checkered magazine catch facilitates loading operations.

Delivered with :

- Two interchangeable handle backs
- Three 17-round magazines
- User Manual
- Locking device
- Soft pistol case with FN Herstal logo
