MN243	76 grains	C	.243 Win	VerminXtreme	2702	1050	20	76	48.00 € incl. tax

A lightning-fast expansion to neutralize foxes and pests without warning.

Designed for pest control shooting, the VerminXtreme in .243 Win. combines blazing initial velocity and instant expansion for decisive results on pests.

- **Caliber:** .243 Winchester
- **Bullet type:** Hollow Point (hollow ogive)
- **Weight:** 76 grains / 4.9 grams
- **Speed:** 1050 m/s (V0)
- **Energy:** 2701 joules (E0)
- **Packaging:** Box of 20 cartridges

A pest control munition designed for the toughest pests.

When foxes, corvids, or coypus become too much of a nuisance, it's best to rely on a cartridge that doesn't hold back. That's where the **VerminXtreme** comes in. Designed to deliver an immediate ballistic shock, this .243 Win. round hits hard... and fast.

Rapid expansion and optimal penetration channel

Thanks to its aggressive **Hollow Point** design, the bullet instantly expands upon impact with the target. Energy transfer is rapid, minimizing the risk of leakage. This impact behavior allows for clean and effective control, even at intermediate distances.

Semi-automatic compatibility and NORMA precision

Its truncated nose profile improves feeding in **semi-automatic weapons**, while ensuring excellent firing consistency. All this in a reliable, high-quality Swedish brass case, perfect for reloading.

Ballistic data

- **Initial velocity (V0) :** 1050 m/s
- **Speed at 100 m :** 823 m/s
- **Speed at 200 m :** 629 m/s
- **Speed at 300 m :** 467 m/s
- **Initial energy (E0) :** 2701 joules
- **Energy at 100 m :** 1659 joules
- **Energy at 200 m :** 969 joules
- **Energy at 300 m :** 534 joules

With VerminXtreme, NORMA offers a reliable and powerful solution for those seeking to sustainably control invasive species.

FAQ – Frequently Asked Questions

Is this ammunition suitable for semi-automatic weapons?

Yes, its flat nose design ensures smooth and reliable feeding in most semi-automatic hunting rifles.

Can this cartridge be used on medium-sized game?

No, it's optimized for pest control. For medium-sized game, it's better to opt for bullets with 90 to 100 grains.

Is it rechargeable?

Yes, NORMA brass cases are renowned for their high quality and durability in reloading.
