Lightning expansion for immediate pest elimination.

NORMA VarmintXtreme is the ideal choice for combating persistent pests. Its aggressive hollow point ensures rapid and devastating expansion on impact, delivering lethal energy that quickly neutralizes pests. This design not only maximizes the effectiveness of each shot, but also minimizes the risk of pests escaping, thus providing a global solution to the problem.

Rapid neutralization for pest control

The Norma VarmintXtreme in .222 Remington is designed for medium-range shooting of foxes, corvids, and small predators. Its **Hollow Point** bullet produces a **lightning-fast expansion** upon impact, with immediate energy transfer to the target, reducing the risk of escape.

Speed

- V0 940 m/s
- V100 732 m/s
- V200 554 m/s
- V300 410 m/s

Energy

- E0 1590 J
- E100 964 J
- E200 552 J

- E300 303 J

Ballistic performance and fluidity in semi-auto

Thanks to its hollow point and **flattened nose** , it ensures good operation in semi-automatic rifles. Its initial speed of 940 m/s guarantees a very tight trajectory and optimal precision up to 200 meters:

- Perfect for **regulation shooting** or **territory protection**
- Works perfectly in **semi-automatic weapons**
- Norma brass cases: precision + durability when reloading
