## These hiking shoes will accompany you perfectly in mid-mountains.

Equipped with an MTD membrane, this boot combines waterproofing and breathability. Its upper, made of split leather and polyamide, ensures both robustness and lightness. The protective reinforcements of this shoe facilitate its use in intensive working conditions or during hiking.

- Resistant and durable front stone guard
- Comfortable sole
- Waterproof and breathable membrane - MTD technology.
- Upper: 70% split cowhide leather and 30% polyamide.
- Membrane: 100% polyester.
- Stone guard: Synthetic.
- Outsole: Rubber.

### WATERPROOF AND SEAM TAPED

These shoes will keep you dry thanks to a waterproof membrane and taped seams: no drop of water penetrates them, even under downpours. We checked this by leaving this model in a basin of water for 1.5 hours, then checking that the interior was still perfectly dry. The material has a fine enough mesh to block the entry of water while allowing perspiration to escape, for optimal comfort.

### BREATHABLE

The material has a fine enough mesh to block the entry of water while allowing perspiration to escape, for optimal comfort.

**Interview :**

- Clean the inside and outside of the shoe using a damp, lint-free cloth.
- Never dry damp shoes near a heat source or in direct sunlight.

- Maintenance of leather with a velvet appearance (split leather, nubuck): brush the surface using a soft brush to remove dust then apply a waterproofer (never use shoe polish).
- Maintenance of smooth-looking leather: wipe the surface with a soft damp cloth then apply a small amount of colorless shoe polish to create a protective film on the shoe.
- Use a colorless polishing sponge to clean and shine your shoes and boots.
