The tape cartridge: Innovation patented by the PABC company

Never go hunting without a tape measure again. Stash it in your cartridge belt, pocket, bag, or car. It won't get in the way of your leashes. By carrying one, whether you're out hunting or out hunting, you'll make your blood hunt or game gatherers' activities easier.

- 2 container cartridges each with 3 180 cm barrier strips
- + 1 spare 180 cm barrier tape

Its use is simple: Simply open your TAPE CARTRIDGE, unroll the appropriate tape and mark your dead or injured animal.

Then reload it with new strips, at the length of your choice.

It is safe, not suitable for a CAL 12 rifle.
