| LE692 | #90302 - .45 Colt | Vente libre | .45 Colt | 25.00 € incl. tax |

## This crimper is essential to balance pressure and increase precision.

This floating sleeve crimper is operated by press lever pressure to avoid depressing the sleeve shoulder. A firm crimp is essential for reliable and accurate ammunition, as it eliminates the poor ignition problems of slow-burning magnum powders.

A firm crimp improves accuracy because the pressure must reach a higher level before the ball begins to move. This higher starting pressure ensures a more uniform pressure curve and fewer speed variations.
