Warhead recalibrator tool for Lyman and RCBS recalibration press.

If you cast your own bullets, this tool allows the reloader to reduce bullet size and apply lubrication. Lyman's improved sizing dies now have 90° hole spacing to make lubricating the bullet easier, even with today's harsh lubricants. Lyman sizing dies also feature a tapered mouth and hardened interior ensuring alignment for a perfect cylindrical shape. Interior dimensions correspond to suggested diameters for all common rifle and pistol calibers.
