### 8-position turret press with cast steel structure

The Lyman Brass Smith 8-position turret press stands out as being the most complete and robust available on the market. Its extra-large 8-position turret is machined from ultra-resistant cast steel. Swapping turrets is made much easier with an integrated locking bolt. This press can accommodate either 2 sets of 4 tools, or 4 sets of 2 tools, thus offering great flexibility of use. Its cast steel structure is spacious enough to allow the reloading of even the longest rifle cartridges.

Actuating the press handle reveals a precise fit and ensures smooth, snag-free operation. Additionally, unlike many competing presses, the Brass Smith All-American 8 Press comes with a reliable, easy-to-handle straight leader feed. The primer feed tubes are also secured with heavy steel shielding, ensuring greater safety during use.

The Brass Smith All-American 8 Press features a comfortable ball handle, designed to be used by both right-handed and left-handed users. It is compatible with any 7/8" x 14 threaded tool and standard socket holder, providing maximum versatility.

Features :

- Structure and turret machined from cast steel.
- Extra-large 8-position turret easy to remove and exchange.
- Capacity to hold 2 sets of 4 tools or 4 sets of 2 tools.
- 2.5 cm diameter cylinder.
