LYM036	Cyclone Case Driver #7631561	Vente libre	223.00 € incl. tax

Case dryer, the ideal companion to any ultrasonic or rotary cleaning system.

The Lyman Cyclone Case Dryer is the ideal accessory to accompany any ultrasonic or rotary cleaning system. No more waiting for several days for your cases to air dry! Thanks to the Cyclone's forced hot air circulation, your cases will be dry inside and out in just one to two hours, without leaving unsightly water marks.

Featuring a five-tray design, the Cyclone allows you to dry up to 1000 .223 caliber or 2000 9mm caliber cases in a single operation. Each tray can also serve as a separator for different calibers of cases. Additionally, you can use the Cyclone with weapon parts that have been ultrasonically cleaned.

The device is equipped with a timer allowing up to 180 minutes of continuous operation. Drying trays feature racks designed to hold smaller cases while allowing maximum airflow. Additionally, the trays have built-in handles for easy loading and unloading.
