Complete solution for reloading straight-cased calibers.

Lyman **3-piece tool set** designed for reloading **straight-walled rifles** . Includes everything needed for precise resizing, neck enlargement, and bullet seating.

- **Cartridge type:** straight-cased rifles
- **Contents:** Full sizing die + dual-stage expander + seater
- **Use:** Ideal for **cast lead** bullets
- **Compatibility:** Standard 7/8x14 thread presses
- **Function:** uncapping, expansion, projectile insertion

Reloading straight-cased ammunition requires the right tools. This **3-piece Lyman tool set** was designed to optimize every step, especially with hand-cast **lead bullets** . An essential for the discerning reloader.

Full recalibration and precise decapsulating

The first tool in the game is an **integral resizing die** that restores the case to its original dimensions while extracting the worn primer using an **integrated decapping** rod.

Dual-stage expander: comfort and consistency

The second tool is a two-stage **neck expander** . It facilitates the insertion of **lead** bullets without deformation, while reducing case wear. This is a key advantage for jacketed projectiles.

Stable seating and optimal alignment

Finally, the third tool ensures **perfect bullet positioning** in the case. It allows for progressive seating with depth adjustment, for a consistent and reliable cartridge every time.

FAQ

- **Is this game suitable for jacketed balls?**
  Yes, but it is particularly effective with **lead bullets** thanks to the specific expander.
- **Is it suitable for conventional presses?**
  Yes, it is compatible with standard **7/8x14** net presses.
- **Is it compatible with all calibers with straight cases?**
  You need to choose the specific set for each caliber of **straight-cased** rifle.
