Lyman Electric Socket Shortener

The Lyman Case Trim Xpress offers reloaders the speed and accuracy they've always wanted. Equipped with its own power source and a powerful variable-speed motor, it eliminates the need for electric drills or additional motors. By simply pressing the case against the carbide blade, the Case Trim Xpress trims cases quickly and cleanly. Supplied with a set of 10 bushings to fit the most common gun case calibers, it holds and centers the case with the blade, eliminating the need for pilots. You can efficiently trim approximately 15 cases per minute.

Additionally, the Case Trim Xpress features an adjustment wheel to easily adjust case length in 0.001 inch increments. Its compact body ensures that it will not take up space on your workbench while still providing fast and precise cuts.

Main Features :

- Fast, precise cuts at approximately 15 cases per minute
- Variable speed motor and ultra-sharp, durable carbide blade
- Comes with 10 bushings to fit most popular rifle bushings
- Compact housing that takes up little space on your work surface
- No need for drivers anymore

Lyman®
