LYM130	CASE TRIM XPRESS 230V ALL #7862016	Vente libre	386.00 € incl. tax

Lyman Electric Socket Shortener

Lyman's Case Trim Xpress gives reloaders the speed and precision they've always sought. Equipped with its own power source and a powerful variable speed motor, it eliminates the need for electric drills or purchasing additional motors. By simply pressing the socket against the carbide blade, the Case Trim Xpress cuts cases quickly and cleanly. Supplied with a set of 10 bushings suitable for the most common gun case calibers, it ensures the bushing is held and centered with the blade, eliminating the need for pilots. So you can shorten around 15 cases per minute efficiently.

Additionally, the Case Trim Xpress features an adjustment wheel to easily adjust case length in 0.001 inch increments. Its compact body ensures that it will not take up space on your workbench while still providing fast and precise cuts.

Main Features :

- Fast, precise cuts at approximately 15 cases per minute
- Variable speed motor and ultra-sharp, durable carbide blade
- Comes with 10 bushings to fit most popular rifle bushings
- Compact housing that takes up little space on your work surface
- No need for drivers anymore
