Funnel with 6 inserts for caliber .22 to .338.

The Brass Smith Precision Powder Funnel Kit is the perfect system for those who want to get serious about reloading. The whole thing is completely antistatic, which prevents the powder from sticking to the funnel, as is sometimes the case with plastic material. The robustness of its construction and the quality of the Brass Smith Precision kit are evident from the first use.

Features :

- Anti-static cast aluminum body and machined aluminum components
- 6 CNC turned aluminum inserts for calibers 22 to 338
- Inserts are quick and easy to put on and take off
- Convenient handle
- Comes with padded storage box
- The caliber is laser marked on each insert

This is not a simple "one size fits all" funnel. The kit includes precision inserts calibrated and machined to fit each case perfectly. Plus, it comes with a padded box to store your gear neatly when not in use. The funnel is accompanied by 6 inserts for cases of calibers 22, 243 / 6mm, 25 / 6.5mm, 270 / 7mm, 30 and 338.
