A60252	Orange High Performance Lubricant Pen	Vente libre	11.00 € incl. tax

Developed jointly by 4UAD and J-Smooth, the brand new formula achieves high fluidity, high abrasion resistance and reduced friction. Each use provides long-lasting protection and ensures smooth cycling between moving parts. The original rotating pen design makes it easy to carry and allows for contactless application

4UANTUM performance lubricant pen

Developed jointly by 4UAD and J-Smooth, this high-performance lubricant is specifically formulated for Airsoft replicas. Containing polydimethylsiloxane, PTFE and paraffin wax. All ingredients are inert and non-toxic, allowing safe use even on plastic and rubber components.

Quantum Industry X Extreme Carry Lubricant Pen

Developed jointly by 4UAD and "Extremely Smooth Lubricant"! This new improved formula is specially formulated for airsoft replicas. It contains smooth ingredients such as organosilicon polymer compounds, PTFE and paraffin. All ingredients are inert and non-toxic. Will not damage plastic. and rubber parts inside the air gun.

Each use provides effective long-term anti-wear protection and ensures excellent operation.

When using it, you simply rotate the rear end to extract the lubricating oil (depending on the area of the workpiece), then use the pen tip to brush until the color of the oil is invisible to ensure that only a thin layer of oil is evenly coated on the surface of the part to avoid excessive oiling and deposition of impurities. A lubricant pen contains enough content to completely service a long replica about ten times.
