SKU	Designation	French Law	MSRP
A60257	High performance thread lock pen Pink	Vente libre	11.00 € incl. tax

4UANTUM LOCK adhesive thread leaves an adhesive material on your screw so that it does not come off over time. The click pen's packaging is convenient and dispenses a perfectly sized drop for most threads.

Handling cure time: 30 minutes / Functional cure time: 3 hours / Full cure time: 24 hours

Permanent wire lock for threading

Vibrations are the worst enemy of bindings. Each airsoft gun, including the springs, vibrates during operation. Therefore, it is very important to use threadlockers on fasteners that hold critical components.

Once cured, 4UANTUM LOCK wire glue leaves a bonding material on your screw so it won't come loose over time.

Click pen packaging easily dispenses a perfectly sized drop for most threads.

The pink label indicates strong adhesive strength. In addition to standard hand tools, heat may be required for removal.

Ideal for high stress fasteners or external fasteners that do not require regular disassembly.
