A53756	Putange model mole traps with tensioner - Set of 2	Vente libre	15.00 € incl. tax

Set of 2 traps with tensioner.

The Putange mole trap is traditionally used to quickly and efficiently capture moles.

Tips for use:

1. Wear gloves.

2. In one hand, equip yourself with a putange (rusty) trap. In the other hand, take the key.

3. Insert the key inside the trap then exert pressure on the key to open the trap.

4. Place the square (tensioner) inside the trap to put it under tension (1 cm from the edge of the trap).

5. Place the armed trap inside the mole's gallery.

6. Place a marker (stick - if possible, use a fluorescent spray to find it easily) to easily find your trap.

7. Place the soil back on the trap.
