Maximum expansion and formidable precision for small game.

The **CCI TNT .17 HMR** is a rimfire ammunition specially designed for small game hunting and pest control. Equipped with a 17-grain **TNT Hollow Point** bullet, it guarantees rapid expansion on impact for maximum effectiveness. Its very high initial velocity (approximately 777 m/s) ensures a taut trajectory and remarkable accuracy at medium range. Ideal for hunters looking for a clean and effective shot on foxes, corvids or small predators. Made in the United States, the TNT .17 HMR benefits from the recognized know-how of **CCI** , the benchmark brand for reliable and high-performance rimfire ammunition.

High-performance ammunition for hunting small game and pests.

Precision and speed

The **CCI TNT .17 HMR** develops a muzzle velocity of 775 m/s (2550 fps), providing a taut trajectory and reliable accuracy up to medium range.

Controlled expansion

The **TNT Hollow Point** bullet is designed for maximum expansion upon impact, ensuring optimal stopping power on small game.

Technical characteristics

- **Caliber:** .17 HMR
- **Bullet weight:** 17 grains
- **Warhead type:** TNT Hollow Point
- **Initial velocity:** ~775 m/s
- **Priming Type:** Rimfire

- **Made in:** USA

For demanding hunters

Recognized for its **reliability** and consistency, CCI TNT ammunition is popular with hunters looking for a clear impact and immediate expansion.

CCI: quality and innovation

The **CCI** brand continues to innovate to offer ever more efficient rimfire cartridges, adapted to the requirements of modern shooters and hunters.
