These bullets are loaded with the Hornady® V-Max® bullet, a polymer-tipped design that produces flat trajectories, pinpoint accuracy and explosive expansion on impact.

The **CCI V-Max .17 HMR** is a precision rimfire ammunition designed for small game hunting and pest control. Equipped with a 17-grain **Hornady V-Max** bullet, it offers the perfect combination of high velocity and instant fragmentation on impact. With an impressive muzzle velocity (approximately 777 m/s), this cartridge guarantees an ultra-tight trajectory and accurate shooting at long range. Ideal for effectively eliminating foxes, corvids or similarly sized pests. Made in the United States, the V-Max benefits from **CCI's** manufacturing consistency, the world standard for reliable and high-performance rimfire ammunition.

High-performance cartridge for hunting and controlling pests.

Speed and precision

The **CCI V-Max .17 HMR** develops a muzzle velocity of approximately 777 m/s, guaranteeing a taut trajectory and exceptional accuracy.

Efficient fragmentation

The **Hornady V-Max** bullet provides controlled expansion and rapid fragmentation on impact, for immediate stopping power.

Technical characteristics

- **Caliber:** .17 HMR
- **Bullet weight:** 17 grains
- **Bullet Type:** Hornady V-Max (Black Polymer Tip)
- **Initial velocity:** ~777 m/s
- **Energy:** 332 Joules
- **Priming Type:** Rimfire
- **Made in:** USA

For precision shooting

V-Max ammunition is ideal for long-range pest shooting, offering reliability and consistent performance thanks to **CCI** manufacturing quality.

CCI: the rimfire reference

With a wide range of rimfire cartridges, **CCI** has established itself as the choice of shooters looking for accurate and consistent ammunition.
