These bullets are loaded with the Hornady® V-Max® bullet, a polymer-tipped design that produces flat trajectories, pinpoint accuracy and explosive expansion on impact.

Increase the range of rimfire firearms and devastate pest animals.

- Optimal precision
- Explosive expansion
- Polymer tipped bullet
- Reliable CCI® priming

CCI's V-Max bullets represent the pinnacle of ballistic technology for shooters and hunters seeking unmatched accuracy and superior performance in the field. Featuring polymer tips designed to maximize aerodynamics and in-flight stabilization, V-Max bullets deliver precise trajectory and impressive expansion at impact.

The sophisticated design of V-Max bullets ensures rapid and controlled fragmentation, ideal for small game hunting and varmint destruction. Their high speed and optimized ballistic coefficient enable precise shots at long range, giving shooters the confidence to hit their targets with surgical precision.

Whether for hunting, sport shooting or personal defense, CCI V-Max bullets are synonymous with reliability, performance and exceptional results. With their well-established reputation in the field, V-Max bullets continue to command the admiration of shooters around the world thanks to their unmatched quality and ability to exceed the highest expectations.
