Fast and reliable power supply for the Mossberg 590M, even under heavy use.

The **Mossberg 590M Mag-Fed 12/70 Charger** is designed to provide smooth and consistent feeding on Mag-Fed pump platforms, with robustness suited to demanding environments.

- **Compatibility: Mossberg 590M Mag-Fed** only
- **Capacity:** 5 shots (cat. B), 10 shots (cat. B), 15 shots (cat. A1), 20 shots (cat. A1)
- **Caliber:** 12/70 (2.75")
- **Material:** Patented self-lubricating polymer
- **Lips:** Hardened steel
- **Steel finish:** Anti-corrosion black oxide
- **Ergonomics:** Molded body with optimized grip
- **Maintenance:** Removable base plate
- **Design:** Patented dual battery

Detailed presentation

The **Mossberg 590M Mag-Fed magazines** are designed to meet the demands of professionals, security forces, and emergency responders. Thanks to their **detachable magazine** system, these magazines allow for ultra-fast reloads, far more efficient than traditional tubular systems. The range is available in **four capacities: 5, 10, 15, and 20 rounds** , to offer a solution tailored to every

operational context.

Their **patented self-lubricating polymer** structure ensures optimal wear resistance, while the **hardened steel feed lips** guarantee reliable and consistent operation even under the most demanding conditions. The easy-grip, molded design allows for quick and secure handling. The steel components are protected by a corrosion-resistant **black oxide finish** .

These magazines are exclusively compatible with the **Mossberg 590M pump-action shotgun** and can only be used with **12/70 gauge cartridges** , for smooth and secure feeding.

Technical specifications

- **Compatibility:** Mossberg 590M Mag-Fed only
- **Capacity:** 5, 10, 15 or 20 shots
- **Ammunition type:** 12/70 (2.75") caliber
- **Material:** Patented self-lubricating polymer
- **Feed lips:** Hardened steel
- **Steel finish:** Resistant to black oxide
- **Ergonomics:** Molded design with optimized grip
- **Cleaning:** Removable base plate for easy maintenance
- **Standards:** Designed according to US military standards

Technical glossary

- **Mag-Fed:** Detachable magazine feeding system, faster than manual tube reloading systems.
- **Self-lubricating polymer:** Patented material that reduces internal friction to improve cycle reliability.
- **12/70 Caliber:** 70mm (2.75") 12 gauge cartridge, compatible with most professional tactical rifles.
- **Black oxide:** Anti-corrosion finish used on metal parts to increase durability.

Usage and maintenance instructions

To ensure the durability and reliability of your **Mossberg 590M magazines** , regular maintenance is recommended. Clean the interior with compressed air or a soft cloth to remove powder residue. Do not store continuously loaded magazines to maintain spring tension. Regularly check the condition of the polymer and feed spring. Store your magazines in a dry environment, away from moisture and dust.
