NEW: with practical dosing tip!

Whether for crafts, home or hobby, for maintenance, protection, cleaning or lubrication, at home, at work or on the go, Ballistol universal oil is the right oil for 1000 cases and more. It is used as rust protection, lubricating oil, maintenance and cleaning product and has been shining for 120 years with its many exceptional properties.

Ballistol universal oil:

- Extremely fluctuating
- Does not subside,
- Fully biodegradable,
- Compatible for the upkeep and maintenance of machines in contact with food products
- Well tolerated by the skin,
- Completely harmless to health,
- Eco-friendly,
- Has a disinfectant effect.

Ballistol Universal Oil was developed as early as 1904 and has been manufactured in Germany according to an unchanged formula ever since. All active ingredients in Ballistol Universal Oil are particularly pure, of biological origin, and completely degradable. The base oil of Ballistol Universal Oil is of medical purity, free from chlorinated hydrocarbons, and contains no substances of animal origin.

Furthermore, Ballistol Universal Oil is free from silicone, PTFE, acid and resin and is safe within the meaning of §§ 30, 31 of the German Food, Consumer Goods and Feed Act (LFGB) and Regulation (EC) No. 1935/2004. Ballistol Universal Oil is therefore suitable for the care and maintenance of machines and devices used in the food and beverage industry and which may come into contact with the product.

Ballistol Universal Oil cleans, maintains, protects, preserves and dissolves rust as well as residues such as resins from unsuitable oils and can be used on wood, leather, stainless steel, iron, non-ferrous metals, non-ferrous metals and oil-resistant rubber. As a universal oil, it can be used incredibly versatile - in professional and hobby workshops, in industry and crafts, in cars and motorcycles, in the home and garden, when fishing, in sports as well as for the care of leather and

weapons.

Ballistol Universal Oil:

- Extremely fluctuating
- Does not resolve,
- Fully biodegradable,
- Suitable for the maintenance and servicing of machines in contact with food products
- Well tolerated by the skin,
- Completely harmless to health,
- Environmentally friendly,
- Has a disinfectant effect.
