- Slope at the busk: 22mm
- Heel slope: 22mm
- 10-round magazine

Adjustable MOA departure group

Rimfire MOA precision trigger with a three-lever design guaranteeing the triple zero principle: zero dead travel, zero drag, zero overtravel. The striker is thus released clearly and very quickly. The trigger weight is adjustable.

Ergonomic

The magazine release system is completely ambidextrous and easily accessible via the 2 side tabs or via the tab directly under the magazine. The charger falls straight into your hand! The stock is hollowed out to reduce weight and the shoulder is still perfect.

Rotary feeder

The magazine release system is fully ambidextrous and easily accessible. The charger falls straight into your hand. Changing the magazine takes place without loss of time, you can resume your shooting session!

Threaded Barrel

The barrel is threaded at the muzzle (1/2x20 UNF) to mount a suppressor. A removable guard ring protects the thread when the weapon is used without a suppressor. The muzzle of the barrel is chamfered to protect the barrel rifling and guarantee always perfect precision.
