Preview:

The ARCTURUS AR series is a high-performance line featuring an all-metal frame and components. An aluminum M-Lok handguard with QD attachment points, combined with a QPQ-treated 6.02mm steel inner barrel and a quick-change spring system, ensures handling and accuracy.

Equipped with the latest Hybrid Gearbox V2, compatible with ETU GATE and magazine detection, it is reinforced for durability and high FPS performance. The improved ETU V2 FE offers fast trigger response, adjustable sensitivity and firing modes like 3-round burst and binary for precise control.

Externally, it features a die-cast aluminum receiver, CNC M-Lok handguard, Mil-Spec stock tube, mid-cap magazine and CNC muzzle brake, providing ruggedness and sleek styling.
